

MIG/MAG Inverter CPTX-I 400 2W

The High-End CPTX machine with inverter technology

- Industrial device for simple welding tasks
- High ignition reliability
- Stepless adjustable
- 100% duty cycle

Type	CPTX-I 400 2W
Main voltage (+/- 15%)	3x 400 V / 50-60 Hz
Actual power output max.	16,2 kVa, 15,4 kW
Welding current	30-400A
Welding voltage	12-38 V
Duty cycle	100%
Safety class / Cooling system	IP 23S / H
Switching steps	stufenlos
Dimensions L x B x H	720mm x 1120mm x 1520mm
Weight	120 kg
Standard equipment - Integrated 4-roll wire feeder WF-04	
Wire feed speed	max. 22 m/min
wire diameter	0,8 - 1,6 mm
Safety class	IP 21
Dimensions L x B x H	258 x 694 x 416 mm
Weight (without wire reel)	18,5 kg
Standard equipment - Cooling unit	
Delivery rate max.	2,5l/min
Pressure max.	3,5 bar
Cooling capacity at 40°C	1300 W

Optional cable hose assy:	
Cable hose assy	2m, 95mm ²
Cable hose assy	5m, 95mm ²
Cable hose assy	10m, 95mm ²
